EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering (AI and ML)

Chennai, India

Sep 2021 – July 2025

EXPERIENCE

Techpanion Solutions

June 2024 – July 2024

AI and Automation Intern

Remote

- Developed an AI-powered invoice processing solution to extract structured information from unstructured invoices using OCR, NLP, and document-processing techniques.
- Designed an end-to-end workflow covering document preprocessing, OCR, field extraction, validation, and structured data output.
- Automated extraction of invoice numbers, vendor details, dates, taxes, and amounts using Python, OpenCV, Tesseract OCR, and NLP techniques.

iCtrlBiz Consulting

Aug 2023 – Dec 2023

Product and Business Systems Intern

Noida, India

- Worked on a CRM and Lead Management System focused on improving lead tracking, customer management, sales pipelines, and operational workflows.
- Translated business requirements into product features including Kanban pipelines, reminders, dashboards, meeting management, quotations, and invoicing.
- Improved workflow visibility and organization across customer and sales processes using a React and PostgreSQL-based solution.

PROJECTS

KarobarKit – Business Toolkit | [GitHub](#) · [Live Demo](#) | *Next.js, TypeScript, React*

Aug 2026 – Present

- Built a privacy-first toolkit with 82 India-focused calculators, document generators, and utilities spanning tax, finance, startups, HR, retail, and e-commerce.
- Designed a local-first, registry-driven architecture with transparent formulas, browser-side workflows, responsive accessibility, and source-aware regulated tools.
- Implemented PDF, PNG, QR, and barcode exports plus schema-constrained AI assistants with redaction, rate limits, and deterministic fallbacks.

BizGuide – AI Compliance Assistant | [GitHub](#) · [Live Demo](#) | *React, FastAPI, LangChain*

May 2026 – Present

- Built a multi-agent RAG platform delivering document-grounded legal, tax, and business compliance guidance for Indian businesses using FastAPI, LangChain, and Llama 3.3 70B.
- Integrated Pinecone and Gemini embeddings with specialized query routing, plus a React 19 interface for profiles, conversation history, and PDF uploads.

Handovr – Verified Phone Marketplace | [Live Site](#) | *Next.js, React, Supabase*

Feb 2026 – Apr 2026

- Built a full-stack verified marketplace for buying and selling second-hand phones across Delhi NCR, covering listings, discovery, matching, and transaction workflows.
- Designed a 16-point device verification flow and escrow-oriented payment journey to strengthen trust and protection for buyers and sellers.

FinAssist – Virtual Finance Assistant | [GitHub](#) · [Live Demo](#) | *Python, Flask, JavaScript*

Jan 2025 – Feb 2025

- Built a Flask finance dashboard integrating 15+ tools, including live NSE stock quotes, mutual fund NAV search, and SIP, EMI, FD, and Zakat calculators.
- Developed a multi-source market news aggregator with parallel RSS fetching alongside real-time currency and commodity price tracking.

SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS

Web & Backend Development: React.js, Next.js, FastAPI, Flask, Node.js, Tailwind CSS, REST APIs

AI/ML & GenAI: TensorFlow, PyTorch, LangChain, RAG Pipelines, LLMs (Llama, Gemini), spaCy, NLTK, OpenCV, YOLO

Databases, Cloud & Tools: PostgreSQL, Supabase, Pinecone, Docker, GitHub, Vercel, Jupyter Notebook, Google Colab

Soft Skills: Problem-Solving, Critical Thinking, Technical Communication, Project Management, Team Collaboration

CERTIFICATIONS

- Python Programming** – IIT Bombay | [Certificate](#)
- C Programming** – IIT Bombay | [Certificate](#)
- Cisco Packet Tracer/Network Simulation** – Cisco Networking Academy | [Credly Badge](#)
- AI for All: From Basics to GenAI Practice** – NVIDIA | [Certificate](#)
